All Legations in Pekin  
Destroyed.

German Minister Is  
Killed.

Delaware Congressman  
Dead.

By Telegraph to Evening News.

London, June 16.—A Hong Kong special says that all the foreign legations in Pekin have been destroyed, and that the German Minister, Baron Von Kelteler, was killed.

The greatest excitement prevails.

Washington, June 16.—Congressman Hoffecker of Delaware, dropped dead at Smyrna today.

## POLITICS BOOMING.

SEVERAL AFTER OFFICE PRO-  
BATE JUDGE.

Hon. N. A. Hamilton of St. Joseph will come out in today's Evening Press as a candidate for the republican nomination of probate judge. Mr. Hamilton has served the county as prosecuting attorney.

His candidacy will not be favorably received by the half a dozen other county office seekers in St. Joseph.

Judge Van Hiper, who desires a third term, is silently sawing wood. His claims to have the southern delegates convinced and with these he can carry the convention.

There is some talk of a dark horse being sprung on the convention in the person of Rev. Herbert L. Porter of Buchanan, the speaker who quitted the riot in the Niles convention. Rev. Porter has not announced himself as yet, but rumor has it that he will sooner be probate judge than a minister of the gospel.

It is thought by his friends that his wonderful popularity would give him such a scattering of delegates all over the county that with the Buchanan delegation he could win the nomination.

Attorney Ellsworth of Benton Harbor, has been spoken of for the place, but the attorney himself has remained quiet as to his intentions.

## THE SWELL MINSTRELS.

H. Henry's Wonderful Band and Parade  
Next Wednesday.

Watch the streets at noon on Wednesday, June 20, and you will hear H. Henry's magnificent band of forty solo performers, each a high grade artist in his line. Be at the Bell opera house at 7 p. m. and you will hear this wonderful band render the most artistic music of the day from the great masters, and all this is done to remind you that the very best entirely new and original program will be offered at 8:15 p. m. by H. Henry's minstrels of fifty all white stars, a program in which old minstrels disappear and new is given on board of an American battleship, with the jacksies in a bright merry making and you will see the big guns, the revolving turrets, the big search lights. Don't miss this, as it is everywhere pronounced the greatest production of the day, either in or out of minstrelsy, and this time every piece of scenery will be used. Seats on sale at the box office of the theatre, Wednesday morning, June 20, at 9 o'clock.

## UNCLE SAM'S MEN.

They Visited Berrien Springs Yesterday  
Afternoon.

Berrien Springs, June 16.—(Special.)—Two government officials arrived here late yesterday afternoon and visited the site of the dam now being built by the Berrien Springs Water Power company. They took soundings in the river and got the exact geographical location of the dam. The information they secured will be sent at once to Washington, where it will be used in the investigation which will have to be made before the work can proceed. In the meantime the Berrien Springs Water Power company are getting ready to proceed with their work. Yesterday afternoon a dozen wheel scrapers arrived and men are employed in building huge scows, and when work is again started it will be with a vim.

Your Best Friend can give you no better advice than this: "For impure blood, humors, scrofula, salt rheum, dyspepsia, weak nerves, tired feeling, rheumatism, malaria, catarrh, take Hood's Sarsaparilla and be cured."

## CAPT. HARDING

GOVERNMENT ENGINEER HERE  
TODAY.

Not Ready to Talk About Berrien  
Springs or Paw Paw River  
Matters.

The government steamer General Williams was in port this morning from Michigan City with Capt. Harding of the board of engineers. The captain passed the morning in inspecting the dredging and the construction of the north pier. He found both satisfactory.

The fate of the Paw Paw opening and the Berrien Springs dam depend on the reports of the captain. He was seen by a NEWS reporter this morning but refused to give any hint concerning the nature of his reports on the various matters.

"I shall give out no information until I make my report to the secretary of war. Immediately upon my return home I shall get to work on the report and the secretary will have it in his hands in less than two weeks. I don't think there is any need for Benton Harbor citizens to lie awake nights for these next two weeks.

"The Berrien Springs dam matter? Well, I suppose it will fall under my jurisdiction, but really I haven't studied the matter as yet."

All of which goes to show that the dam will be held in litigation for weeks, if not months.

The engineer declared that his visit today has nothing whatever to do with the Paw Paw question.

They are now canning strawberries and gooseberries, and Monday will commence canning peas. Everything is working first class and the only trouble that the owners anticipate is to get sufficient help.

## German Potatoes.

In times of a scant crop in this country potatoes have been imported from Scotland, Ireland and Germany.

Potatoes of a peculiar variety, which are used in making potato salad, are regularly imported from Germany in comparatively limited quantities, says the New York Sun.

In American potatoes it is counted a desirable characteristic that they shall cook dry and mealy; just the opposite quality makes the so-called German potatoes prized for the purposes for which they are used; they cook oily or moist, cutting like some kinds of cheese.

German potatoes are found on sale in some grocery and vegetable stores, and they are found in the form of potato salad in some delicatessen stores, and especially in German restaurants.

The potatoes of this variety at their full growth are small in size; they cook much like the early new potatoes of the ordinary kinds; they cost here about twice as much as ordinary potatoes. About 15,000 bushels annually are imported.

## Prince of Wales as a Jockey.

The prince of Wales once rode and won a horse race. This event took place in Ireland nearly 40 years ago. The horse's name was Rupee and the distance run was a mile and a-half. To the spectators the jockey was known as "Capt. Melville," but in reality it was his royal highness the prince. His colors on this occasion were all white. Rupee was the prince's own horse. He determined to ride him himself and, if possible, to win. This he did in excellent style.

## GET WHEEL THIEF.

ST. JOE MAN ALTOGETHER TOO GOOD.

"Haint those guys easy marks, though?" I feels like one of 'em greased pig runnin' down State street," yelled a 14-year Chicago vagabond to his pals, as he bounded out of Justice Smith's court last evening and made for the bluff with hops, skips and jumps.

He gave his name as Louis Daub and his residence in Chicago. When the City of Milwaukee was leaving her dock in St. Joseph Friday afternoon the lad appeared in sight on a bicycle.

William F. Murphy, a clerk in Burkhardt's store, recognized the wheel as one he had sold some days previous to George Yore. He knew at once that the boy had stolen the wheel and when the latter attempted to sling it on the moving boat Murphy's hand arrested his progress. The vagabond swore and struggled and swore again until young Yore came running on the dock with Policeman Servis.

He said the Chicago lad had taken the bicycle from the rack in front of Bradford's curio stand on the Midway. The young criminal, when taken before Judge Smith, cried oceans of fake tears and between his sobs told of a sister dying of starvation in Chicago.

"I don't care to enter charges against him, judge. I'd prefer that you set him free," declared young Yore, "but—but," and the boy doubled his fists. "I'd just like to give him one black eye to remember that wheel by."

The culprit was discharged with a severe lecture.

## APPEALS FOR PEACE.

Senator Hanna Urges Harmony Among Delaware Republicans.

## MORE CONTEST CASES ARE SETTLED.

Gossip with Reference to the Choice for Vice President at Philadelphia—Hotel Rates at Kansas City Will Not Be Extortionate.

Philadelphia, June 16.—The republican national committee on Friday put in three long sessions on the contests which have been brought before it and adjourned late at night with all the controversies practically disposed of except that from Delaware. This has been referred back to the subcommittee with instructions to again endeavor to bring the factions to a basis of agreement, and will receive final action to-day. An important action Friday was the seating of the Brownlow delegates in the Tennessee contest, and refusing admission to the friends of Pension Commissioner Evans. The contest was very bitter and at one time there was the possibility of a serious encounter between Brownlow and Evans. The quite most interesting feature of the day was the speech of Senator Hanna in the Delaware case. Senator Hanna is earnestly anxious to harmonize the factions in Delaware, and his speech before the committee urging another attempt at agreement showed his feeling in the matter. The action of the committee in the

vice president, which was well known. He does not want the vice presidency. He likes a senatorial career and has every prospect of remaining in the senate as long as his party remains in power in Indiana. His friends and the administration understand the situation, and he does not think it necessary to announce a positive declination of the place. Moreover, there are a number of republican leaders who think it possible that a contingency may arise where it will be necessary to nominate Senator Fairbanks. In such an event it is believed by those who know the senator's party loyalty that he would accept. It has been suggested that he will make the speech placing McKinley in nomination, but so far no such arrangement has been made.

RATES WILL BE REASONABLE. Hotel Charges at Kansas City Will Not Be Extortionate.

Kansas City, Mo., June 16.—Six members of the national democratic committee's subcommittee on arrangements for the Kansas City convention held a brief meeting here Friday. The members came particularly to investigate the oft-repeated charges that the Kansas City hotel keepers are demanding extortionate rates for the entertainment of convention guests. Before the subcommittee left Kansas City Friday evening National Chairman James K. Jones issued a statement to the country in which he gives assurance that not only can accommodations be had at reasonable rates, but that, as the situation appears to him, convention visitors to Kansas City may be taken care of at more reasonable

various contests has caused it to be generally remarked that it has not been influenced in the least by the leaders. Senator Hanna's friends from the south, especially the officeholders, have received scant consideration. Where there were rival factions of officeholders, as in Alabama, both sides have been denied seats. The defeat of Wimberly in Louisiana and the elevation of Warmouth is said to have been distinctly antagonistic to the wishes of the close friends of the administration, as Wimberly was sustained by the administration in the fight that was made against his confirmation when he was appointed collector of the port of New Orleans. It was in opposing this confirmation that Warmouth took occasion to make some bitter remarks about Senator Hanna, who was supporting Wimberly. In the New York case it is asserted that the decision was against Senator Platt, and other cases are instanced by members as examples of independent action.

### Vice Presidential Talk.

While there have been no startling developments in the vice presidential situation, a slightly new turn has been given the discussion by an interview in New York with Senator Platt, circulating here Friday, in which Platt suggests B. B. Odell, chairman of the New York state republican committee, as a candidate. While there is still talk of Bliss, his friends here say that he has made it perfectly clear to the president and to the president's friends that personal reasons prevent him from being considered.

Joseph H. Manley, of Maine, is pressing the claims of Secretary Long. Allison won't run.

Delegate Payne, of the Iowa contingent, arrived Friday, having come via Washington. He brought renewed assurances from Senator Allison that he could not and would not be a candidate for vice president. Mr. Payne stated that Senator Allison told him that he not only would not be a candidate, but that if nominated he would decline. "If they should place me in nomination," the Iowa senator is represented as having said, "I will decline, and I will find means of letting the delegates know my position before they leave the hall." Mr. Payne said that he and other delegates had accepted this declination as final and that he had called upon the president and told him that he so regarded it. He says that the president also accepted this view, remarking that if the senator was so determined in his attitude his friends could hardly press him farther.

George E. Roberts, director of the mint, is here in charge of the vice presidential boom of Representative Dolliver.

Senator Fairbanks, of Indiana, was another arrival Friday, and has been besieged by those who were anxious

rates than has been the case at any former convention.

The subcommittee also carefully investigated the progress being made in the building of convention hall. Some doubt was expressed by members of the committee that the great hall could be completed by July 4, and there was talk of urging the local committee to have a night shift of mechanics put to work upon the building, but after the subcommittee had been in conference with the local committee and the supervising architects they no longer doubted the assurances that the hall would be finished in time.

### IN TRADE CIRCLES.

In Outward Appearance the Situation Is Worse Than the Real Facts Warrant.

New York, June 16.—Bloomberg's says: "Measured by recent records and recollections of business activity, the present between-seasons dullness seems specially marked and the reactionary movement of prices makes dark look worse than it really is. Judged by such indicators as railroad tariffs and the statistics of foreign trade, the volume of business doing is considerably larger than a year ago when it will be recalled trade was cheerfully active. It is true bank clearings are considerably smaller than last year's clearings, undoubtedly included much of a speculative character, this year almost wholly absent, and yet, outside of the metropolis, bank clearings are heavier this year than last."

"Lower prices for iron and steel have not met expectations of causing a reduction in output, and the latest furnace report indicates an actually larger output and increased stock, though this latter feature apparently has been magnified because supplies of high-grade pig iron are still scarce, particularly so at the south. On the other hand, low grades are in plentiful supply, with little demand."

R. G. Dun & Co., in their Weekly Review of Trade, say: "A season of declining prices is never wholly agreeable to business men whose stocks on hand are losing part of their value. Yet there are times when return to the highest prosperity in business is not possible except through readjustment of prices. The highest prosperity the country had ever reached, prior to the panic, was in 1892, with prices averaging not quite 75 per cent. of their average in 1880. After great depression for several years the highest point reached with last year's recovery was 80 per cent. In March, but the gradual yielding has already returned the general average of prices to a shade less than 75 per cent., practically where it was with the highest prosperity in 1892."

"Failures for the first week of June were in amount \$2,118,810, of which \$1,062,870 were in manufacturing and \$833,236 in trading concerns. Failures for the week have been 162 in the United States, against 130 last year, and 21 in Canada, against 18 last year."

### Killed Wife and Himself.

Oneonta, N. Y., June 16.—Because she refused to live with him Charles R. Myrick, aged 42 years, of Gilbertsville, shot and instantly killed his wife, 40 years old, at his mother's home at Gilbertsville Friday. Myrick then shot himself in his head, dying instantly.

## DOWAGIAC IS LICKED.

Berrien Centre Croquet Team Skins  
Dowagiac Artists to a  
Finish.

## RACY REPORT OF GAMES.

Lightning Struck a Tree Only  
23 Feet Away from the  
Game.

The Dowagiac News of yesterday  
prints the following racy story in re-  
gard to a croquet game at Berrien  
Centre:

Berrien Centre is the name of a  
small village located in the central  
part of Berrien county. As we are all  
well aware, Berrien county is quite  
widely and more favorably known as  
being the home of Auditor General  
Dix, Senator Blakeslee and the editor  
of the Niles Star. As late as 1850 the  
principal inhabitants of the prettily  
wooded hills about Berrien Centre  
were Indians, but at the present time  
all traces of the Aborigines have been  
lost, except, perhaps, that the village  
is sometimes visited nowadays by a  
certain species of wooden Indians, who  
occasionally migrate that way from  
Dowagiac. This much by way of an  
historical introduction.

Now it happens that during the pre-  
sent era the incubator of spare time and  
constant practice has hatched out a  
croquet team at Berrien Centre, which,  
as a feature by itself, is sufficient to  
give the village a state-wide reputa-  
tion. Affidavits in support of this last  
statement can be secured from every  
member of the Dowagiac croquet club.  
Yesterday morning, bright and early,  
at an hour when the happy song bird  
and the fowl of the barn yard were  
warbling the bugle notes of a new born  
day, Messrs. Colby, Lewis, Hopkins  
and Heddon, of the local club, started  
for the little Berrien county village  
with two horses and a determination to  
take the scalp of anybody that might  
be unfortunate enough to get in their  
way. Their hearts were light and their  
zeal could only be equalled by a  
young American soldier entering his  
first battle.

They arrived in Berrien Centre just  
in time to dodge a heavy rain storm  
and to fall into the arms of a hearty  
welcome at the home of the Honorable  
Thomas Marrs, a gentleman who, at  
divers times, has been honored by  
positions of political trust, state and  
county and is at present best known as  
a prominent republican politician and  
head "rooter" for the Berrien Centre  
croquet club. As an incident to the  
pilgrimage, it may be stated that while  
the visitors were pleasantly seated  
upon the front porch at the Marrs  
home and awaiting a few hours of idleness  
on the part of the rain fiend, the  
lightning danced the minuet around  
the premises with an alacrity quite  
alarmsome. Four times in rapid suc-  
cession these unwelcome messengers from  
heaven struck within a few rods of the  
house, the last time a large evergreen  
tree, only 23 feet away, as afterward  
stepped off by Mr. Hopkins, being  
struck and partially rendered into  
kindling wood. And while the close  
proximity and ferocity of this storm  
was most frightful, the lightning-like  
way in which the Berrien Centre gen-  
tlemen moved around the croquet  
ground a few hours later, was so much  
more terrible that the best efforts of  
the elements were exceedingly dis-  
tanced. In fact, out on the croquet  
ground it not only rained and poured,  
but there was a veritable cloudburst.  
And the only way to get in out of the  
wet was to start back to Dowagiac.

Messrs. Hopkins and Heddon were  
the first victims and they were trimmed  
to a pessimist's satisfaction with the  
latest and most popular style of trim-  
mings. Messrs. Murphy and Caly  
executed this job with alarming speed  
and accuracy.

Messrs. Colby and Lewis were the  
next pair to parade innocently up to  
the slaughter, and at a point in the  
game when it was assured that their  
order would be filled with promp-  
titude and dispatch and the same brand  
of trimming, a friendly rain came down  
and shed its sympathetic tears upon  
the suffering envoys from Dowagiac.  
While in the minds of a great many  
people the efficacy of prayer is not es-  
tablished, Mr. Lewis was seen to be on  
his knees with his eyes turned heaven-  
ward at the time the rain began.

This last shower closed the program  
for the day and there is every reason  
to believe that the Dowagiac mission-  
aries came home with considerable re-  
spect for the prowess of the Berrien  
Centre "boxers." They are no doubt  
also quite impressed with the fact that  
great genius buds and blossoms in the  
rural districts and that the only sure  
way of becoming national president or  
a great croquet player is to begin by  
"splitting rails."

## MICHIGAN.

Census enumerators found an old man  
named Sexton in his shanty a few  
miles from Standish. He was uncon-  
scious and had been terribly pounded.  
He said two men forced an entrance  
and on his refusal to give up his  
money, they attacked him and ran-  
sacked the place, securing \$45 which  
he had saved up. It is doubtful if he  
recovers.

Reports to the state board of health  
show that rheumatism, neuralgia,  
bronchitis, tonsillitis and influenza, in  
the order named, caused the most sick-  
ness in Michigan during the past week.  
Cerebro-spinal meningitis was reported  
at 6 places, smallpox at 9, diph-  
theria at 22, whooping cough at 24,  
typhoid fever at 31, scarlet fever at 67,  
measles at 91, and consumption at 172.

## NOT DISCOURAGED.

Berrien Springs Company Keeps Up  
Preparations for Dam.

The bitterness engendered at Berrien  
Springs over the dam contention is  
surprising to those from the outside  
who are accustomed to see communities  
welcome the beginning of a new enter-  
prise. As an illustration many in that  
village who seemingly would prefer  
that no dam be built at all than to see  
the old company build it, openly re-  
joiced when the news came Thursday  
afternoon that the war department had  
decided the stream at that point to be  
navigable and ordered that construc-  
tion be stopped. In most towns this  
would have been regarded as a calam-  
ity, meaning the throwing out of em-  
ployment of forty or fifty men, and the  
closing of a weekly payroll amounting  
to between four and five hundred dol-  
lars. On the contrary, the friends of  
the Chapin company welcomed the  
order as a distinct victory.

The friends of the old power com-  
pany, however, are complacent and  
are confident that within a few days  
the order will be so far vacated that  
work can again proceed. The fact  
that the department holds that the  
river is a navigable stream does not  
mean that a dam cannot be built, but  
merely that certain things must first  
be done as a prerequisite, among  
others being the filing of the plan and  
its approval by the department. As  
the proposed dam is to be of the very  
best construction and will be a distinct  
evidence of the highest engineering  
skill, there is no question but that the  
plans will be approved. In the mean-  
time the company is proceeding with  
other arrangements. Large scows  
have been secured for transporting  
stone and a number of wheel scrapers  
have arrived, so that the work, when  
again commenced can be prosecuted  
more vigorously than before.

The friends of the Chapin people  
claim that the Berrien Springs water  
power company have received no order  
from the government to stop work and  
that the company is at the end of its  
rope and has made this an excuse to  
quit.

Gentlemen:—My mamma has been a  
great coffee drinker and has found it  
very injurious. Having used several  
packages of your GRAIN-O, the drink  
that takes the place of coffee, she finds  
it much better for herself and for us  
children to drink. She has given up  
coffee drinking entirely. We use a

## Smallpox Touring Michigan.

Lansing, June 16.—A state inspector  
went to Potterville yesterday to diag-  
nose a case of suspected smallpox.  
The victim is a commercial traveler  
who came home Wednesday night  
covered with eruptions. He said that  
for ten days he had been sick enough  
to be in bed, but had visited a number  
of towns in various parts of the state.  
If the inspector finds that the disease  
is smallpox, all these places will be  
notified and general vaccination in all  
be urged.

## PINGREE WILL RUN

In Case Republicans Nominate  
Ferry.

Lansing, June 16.—So far from being  
weaned from his purpose to run for  
governor in case Ferry is nominated,  
Gov. Pingree is more than ever deter-  
mined to make the run. One of his  
closest advisers said this week that all  
efforts to dissuade the governor had  
proved unavailing, and that he will  
certainly run on the stump if the De-  
troit man is nominated.

While here last week, ex-Gov. Luce  
said that the farmers, who are prac-  
tically a unit for the equal tax plank  
of the platform of 1898, would not sup-  
port Ferry at the polls, and he even  
more than broadly intimated that he  
would feel constrained to take the  
stump against the seed man if the lat-  
ter won out in the convention.

the best doctors could give no help;

## THE INDIAN OPERA.

Local Talent Will Present the Beautiful  
Play.

The forthcoming production of the  
Indian opera, "Powhatan," is awaited  
with much interest, and everything is  
favorable for a splendid rendition.  
The costuming of the piece is brilli-  
antly spectacular, the beaded dress of  
the Indians, the picturesque English dan-  
cing girls and the sailors all combine  
for a most elaborate spectacle. The  
performance will take place at the Bell  
on Friday evening, June 29, and will  
partake of a social nature, so many  
leading families being represented by  
the performers, about 125 taking part.  
The romantic story of Virginia is  
beautifully told in an attractive form  
of comic opera, and it will be pre-  
sented in a strictly first class manner.

## VERY OPTIMISTIC.

Claims of the Michigan Independent  
Telephone Companies.

Secretary J. B. Ware, of the Citi-  
zens' telephone company of Grand  
Rapids, has an optimistic article in  
"Electricity," reviewing the independent  
phone movement in Michigan, and  
claiming that the growth of the inde-  
pendent companies is owing to reason-  
able rates, superior service, more rapid  
development of toll lines and a more  
complete state line system than the  
Bell company, except in the lower tier  
of counties. The toll stations and ex-  
changes within 60 miles of Grand Ra-  
pids are 4,431 Citizens', 2,174 Bell. Num-  
ber of points reached, 218 Citizens', 90  
Bell. "Equally good averages," says  
Mr. Ware, "can be obtained by using  
Saginaw, Alma, St. Johns, Traverse  
City, Cadillac, Muskegon, Allegan and  
Benton Harbor as centers for 50-mile  
circles."

Mr. Ware says the selling of the De-  
troit exchange, the Kalamazoo and toll  
line system and a majority of the New  
State telephone company stock (toll  
lines around Detroit) to the Erie in  
January and February last, threatened,  
as was intended, to overthrow the inde-  
pendent movement in Michigan, but  
this was offset by several consolidations  
among the independents, including  
Lansing and Muskegon. He draws the  
conclusions that reasonable rates are  
here to stay, that the telephone move-  
ment is only fairly begun and that ex-  
change rates in Michigan will be regu-  
lated by local franchises or by state  
legislation.

"It would seem from this review,"  
says Mr. Ware, "that only by an in-  
crease of exchange rates can the Mich-  
igan company succeed financially and  
such increase cannot be made perma-  
nently except by its again securing the  
monopoly of the state, which is an ab-  
solute impossibility."

## A Life of Danger.

Few Railroad Men See the Danger They  
are in Constantly.

Grand Rapids, June 12.—Few rail-  
road employees realize that there is  
more danger of death from diseases of  
the kidneys among their class, than  
from any other cause.

The first danger signal is a pain or  
ache in the small of the back. This is  
followed by a weakness and trouble of  
the urinary organs. The result if not  
taken in hand and treated promptly, is  
chronic rheumatism, Bright's disease,  
diabetes and death.

Mr. E. L. Hoff of 167 Second avenue,  
Grand Rapids, a well known engineer  
on the G. R. & I. R. R. tells how he  
was cured by Dr. A. W. Chase's Kid-  
ney-Liver Pills, he says:

"Exposure to wet and cold brought  
on attack of kidney trouble. I was ter-  
ribly constipated and my back was so  
lame and weak that I could hardly  
work. Hearing of the wonderful re-  
sults others were getting from the use  
of Dr. Chase's Kidney-Liver Pills, I  
purchased a box and after using them,  
I can say that I never met with such  
an effective remedy. They cured me  
of my trouble and made me feel better  
in every way."

The kidneys are the weakest part of  
the body. If they are neglected, dis-  
orders of every other organ follows,  
and finally death from heart failure,  
Bright's disease or diabetes.

Don't wait until it is too late. If  
your back aches, or you have any  
trouble with your urine, any discolora-  
tion or deposits in same, or any disor-  
der of the stomach or liver, Dr. Chase's  
Kidney-Liver Pills are a guaranteed  
cure for those troubles.

Dr. Chase's Kidney and Liver Pills  
are compounded from the original pre-  
scription of Dr. Chase, the author of  
"Dr. Chase's Receipt Book." One pill  
a dose, price 25c. a box, at all drug-  
gists or Dr. A. W. Chase Med. Co.,  
Buffalo, N. Y. See portrait and signa-  
ture of Dr. A. W. Chase on every box

# KLERKSDORP FALLS.

Surrendered to British by a Son of  
Gen. Cronje.

## IS QUITE AN IMPORTANT POSITION.

Latest Dispatches from Lord Roberts  
—News of Fresh Fighting East  
of Pretoria Is Expected  
in London.

London, June 16.—The war office is-  
sues the following dispatch from Lord  
Roberts:

"Pretoria, Residence, June 14.—Klerks-  
dorp surrendered on June 9 to an armed  
party sent on by Hunter.  
"Kitchener reports that the Boers at-  
tacked a reconstruction train early this  
morning a few miles north of Rhenoster  
river. He sent out mounted troops and  
drove off the enemy before they could do  
damage. One man was killed and 11  
wounded, including two officers.

"A messenger from Klerksdorp reports  
that the Boers, who command the de-  
termined to surrender as soon as they knew  
for certain that Pretoria was in our pos-  
session. His example has been copied  
by many in the neighborhood. The court-  
house is now said to be full of arms."

## An Important Position.

By the peaceful occupation of Klerks-  
dorp, announced by Lord Roberts, the  
British have gained a strategic position  
of some importance, as the town is not  
only the terminus of another railroad to  
Johannesburg, but it is within easy  
reach of the Kroonstad-Vierfontein  
railroad.

The Cronje who surrendered the place  
is a son of the famous Gen. Cronje.  
The son was prominent during the  
siege of Mafeking.

## Dispatch from Roberts.

Another dispatch from Roberts is as  
follows:  
"Pretoria, June 15.—As I telegraphed  
yesterday from one of our outposts, 15  
miles east of Pretoria, the Boers evacu-  
ated their position during the night of  
June 12. They had paid so much atten-  
tion to strengthening their flanks that  
their center was weakly held, and as  
soon as this became evident, on June 12,  
I directed Ian Hamilton to attack. He  
moved against Diamond hill with the  
Suffolks, Derbyshires and City Imperial  
volunteers, supported on the left by the  
guards brigade under Inigo Jones.

"It was grand, seeing the way our men  
advanced over the difficult ground and  
under a heavy fire.

"The casualties, I am thankful to say,  
were less than 100, a very small number,  
considering the natural strength of the  
position which had to be carried.

"Our capture of Diamond hill caused the  
Boers to feel they were practically sur-  
rounded, and this resulted in their  
hasty retirement. They were being fol-  
lowed yesterday by some of our mounted  
corps."

## Fresh Fighting Expected.

London, June 16.—Lord Roberts' dis-  
patches leave affairs east of Pretoria  
with the Boers withdrawn to new posi-  
tions Tuesday. News of fresh fighting  
is expected at the war office, but none  
came Friday night.

Gen. Kruger's patrol had a skirmish  
with Boer videttes again Wednesday.  
Some wonder is expressed here as to  
what he is doing with three divisions.  
It is assumed by some that Gen. Buller  
will move into Orange River Colony  
and cooperate with Lord Methuen and  
Gen. Rundle in bagging President  
Steyn and his 7,000 or 8,000 followers.

Maj. Gen. Baden-Powell has been  
appointed to the rank of lieutenant  
general.

## Steyn the Stumbling Block.

The Lorenzo Marques correspondent  
of the Times says:

"It appears that Steyn, and not Kruger,  
is now the stumbling block in the  
way of the surrender of the burghers.  
Shortly after the British entry into Pre-  
toria Mr. Kruger proposed to reopen the  
peace negotiations. Mr. Steyn, bearing in  
mind that his former advice was scouted,  
demurred to this, and pointed out that,  
according to the treaty between the re-  
publics, neither could conclude peace  
without the other. Mr. Kruger, equally  
unwilling to incur the charge of a breach  
of faith, had to continue the war. Noth-  
ing is known regarding the rumo-  
red peace negotiations, but it is a mat-  
ter of notoriety that Mr. Kruger favors  
peace on almost any terms, but dislikes  
personally to take an initiative that  
would involve unconditional surrender."

## OTIS DAY.

Rochester and Western New York

Celebrate the Home-Coming  
of the General.

Rochester, N. Y., June 16.—"Otis  
day" was a memorable occasion for  
Rochester and the people of western  
New York, who joined in extending a  
welcome back to his old home of the  
man who for two years ruled the Phil-  
ippine islands. There were at least  
100,000 strangers in the city, most of  
whom came by rail. Gen. Joseph  
Wheeler reached the city about noon,  
and was given an enthusiastic recep-  
tion at the railway station. The cele-  
bration began with the firing of a  
major general's salute at sunrise, and  
reached its climax in the parade which  
took place in the afternoon.  
There were fireworks and a band  
concert at night in honor of the gen-  
eral and the day was brought to a  
close with a banquet at Powers' hall.  
Gen. Wheeler was the principal speaker.

## Killed His Neighbor.

Sioux City, Ia., June 16.—Samuel  
Livingston was shot and instantly  
killed Friday in Union county, South  
Dakota, by his neighbor, Lorenzo  
Stevens. Livingston, who is 58 years  
old, wanted to marry Stevens' 19-year-  
old daughter, and the men quarreled  
about it. Livingston struck Stevens  
with a monkey-wrench and Stevens  
shot him through the heart. The mur-  
derer made no effort to escape.

## Heavy Failure.

Wichita, Kan., June 16.—J. E. Mc-  
Nair, of Ashland, and I. S. Alexander,  
of Kansas City, of the firm of McNair  
& Alexander, gentlemen, with head-  
quarters at Ashland, have filed a peti-  
tion in bankruptcy in the United  
States court here. Their liabilities  
amount to \$542,071, while their assets

dry season there has been a tremen-  
dous destruction of sheep, 20,000 per-  
ishing in a single season. Ruin is  
starving the unfortunate settlers in the  
face and they have been feeding their  
few surviving sheep on the leaves of  
trees.

Is a most disagree-  
able feature of a beau-  
tiful city and the ques-  
tion has been discussed  
and cussed in every  
manner, shape and  
form, but with very  
few satisfactory re-  
sults. Last fall The

consumes the soot,  
thus doing away with  
that disagreeable fea-

10 to 25 per cent in

the biggest items of  
interest to all users of  
coal.

We would respect-

THE berry shipment to Chicago was about 1,000 cases lighter last evening than it was the night before. ### "New Brooms

### Sweep Clean."

The human body has been compared to a temple and the poet urges us to keep it entire and clean. To accomplish this end, every nook and cranny must be swept and garnished. The agent of the body that goes everywhere is the blood. If it is not strong, pure and life-giving, it is like a worn-out broom. It fails to do the work. Hood's Sarsaparilla makes a new broom of your blood.

### Parrots Are Natural Gymnasts.

The curious gymnastic feats which parrots sometimes perform in their cages have been ascribed to the desire of the birds to vary the monotony of their life in captivity. That was the opinion of Mrs. Maudsley, the wife of the Central American explorer, until she lived in the forest region near Copan, where she saw the parrots, in a state of perfect freedom, indulging in all the feats practiced by their caged cousins.

## Archbishop Martinelli, Papal Rep- resentative at Washington.

He is a Man of Rare Charm and Tact  
and Noted for Generosity and  
Condensation—Will Not  
Discuss Politics.

Archbishop Martinelli is still in  
the west, whither he went early in  
May with his secretary of legation,  
Dr. Rooker, to give the pallium to the  
new archbishop of Oregon, Alexander  
Christy, who begged to receive it from  
the ablegate's own hands. So does  
the popularity of this genial prelate  
extend from ocean to ocean, and yet  
he lives at the papal legation at Wash-  
ington a most retired life, the life of  
a monastic, effacing himself whenever  
possible. But on the rare occasions  
when he comes in contact with people,  
says the New York Tribune, he is as  
responsive and agreeable as a man  
of the world.

Mgr. Martinelli was sent to the  
American capital in 1896, and his pop-  
ularity is emphasized by the unpop-  
ularity of his predecessor, Cardinal  
Satelli, who seemed, with all his cle-  
verness (and he was a most erudite  
man and profound thinker), never  
quite to understand the American  
character or point of view, and, with  
the best intentions in the world, he  
misinterpreted the attitude of people  
toward him, and made mistakes that  
will never be forgiven. His successor,  
on the contrary, in whom are united  
the most lovable qualities of the Latin  
race, is full of tact and possesses a  
knowledge that prevents him from of-  
fending against the traditions of those  
among whom he lives. The infinite  
pains, too, that he takes in small mat-  
ters, his never failing amiability and  
unselfishness endear him both to the  
people of his own church and those  
of other communions who have the  
privilege of knowing him.

His good nature was shown about a  
year ago by an incident so trivial in

ARCHBISHOP MARTINELLI  
(The Pope's Representative in the United  
States.)

escaped general notice. The daughter  
of one of his servants was about to be  
married, and nothing would do the  
bride-elect but that the archbishop  
should tie the nuptial knot. The father,  
in awe of his patron's high office, feared to  
put the request, but the daughter,  
with the buoyancy of youth and inexpe-  
rience, boldly, if blushing, asked  
the pope's legate to perform the cere-  
mony. Her request was cheerfully ac-  
ceeded to, but involved more than any-  
one supposed, since the monsignor had  
to license from the local authorities,  
which is necessary in the district to  
celebrate the marriage ceremony. He  
was not deterred, however, from car-  
rying out his promise, and went to the  
trouble of securing a license to marry  
the daughter of one of his employees to  
the man of her choice.

Mgr. Martinelli was educated at  
home under Cardinal Spacci, of the  
Apostolic, being ordained as a priest  
March 4, 1871. He is a member of the  
Order of St. Augustine, to which his  
brother, Cardinal Martinelli, who dom-  
inated the faith in 1861, also belonged. Shortly  
before his ordination, the monsignor  
lived for some years in the Augustine  
community in Ireland, where he be-  
came familiar with the English lan-  
guage as it is spoken by our Irish coun-  
sins, and his accent still suggests a  
slight brogue.

In 1889 Archbishop Martinelli was  
elected to the post of prior general of  
his order, and in 1895 was confirmed in  
this office for a term of 12 years. It is  
doubtful if anyone among the Augus-  
tines is more popular or more widely  
loved, and none surely have a more po-  
tent influence.

The archbishop has taken a de-  
termined stand regarding politics. He  
will have nothing whatever to do with  
them. "I shall regard my duty to the  
church and to the American people as  
Christians paramount to everything  
else. The church will have nothing to  
do with politics," said the apostolic de-  
legate shortly after his arrival in this  
country. Determination to which he  
has strictly adhered, although the  
temptation, to one who could exert so  
great an influence, to exceed his  
churchly functions and lend a helping  
hand where his sympathies are enlisted  
must be great.

**Our Infant Silk Industry.**  
There are 750 silk factories in the  
United States. Last year they im-  
ported 73,667 bales of reeled silk yarn,  
valued at \$41,195,209, the silkworm  
not having been acclimated in this  
country.

**Mustard for a Whole Nation.**  
Lompoc, in Santa Barbara county,  
Cal., grows mustard for the whole na-  
tion. In that region 2,000 acres are  
cultivated to the seed, the industry  
employing about 200 farmers.

**Shaving Is a Profession.**  
Two English judges have decided  
that hair dressing and shaving must  
in future be numbered among the pro-  
fessions.

# Mrs. Pinkham

The one thing that quali-  
fies a person to give ad-  
vice on any subject is  
experience—experience  
creates knowledge.

No other person has so  
wide an experience with  
female ills nor such a  
record of success as  
Mrs. Pinkham has had.

Over a hundred thou-  
sand cases come before  
her each year. Some per-  
sonally, others by mail.  
And this has been going  
on for 20 years, day after  
day and day after day.

Twenty years of con-  
stant success—think of  
the knowledge thus  
gained! Surely women  
are wise in seeking ad-  
vice from a woman with  
such an experience, es-  
pecially when it is free.

### MODELING BRINGS MONEY.

Utilitarianism in Art Has of Late  
Been Receiving Considerable  
Attention.

The pursuit of art for its own sake  
is commendable in women. It is per-  
haps more commendable when to the  
furtherance of art ideals is added the  
earning of money with which to "keep  
the pot boiling." Of late, says an art  
authority, many of the women stu-  
dents of art, both east and west, who  
are specializing in clay modeling pay  
much attention to the commercial end  
of the work. Greek statues and re-  
naissance friezes may be a more in-  
spiring form of art and necessary for  
training and cultivation, but a model  
of a pair of audacious or candlesticks,  
a section of mantel or any other bit  
of house furnishing or finishing that  
will attract the attention of a manu-  
facturer is more profitable from a  
money viewpoint.

Such models usually are shown at  
the public exhibitions of the art  
schools, and manufacturers on the  
lookout for new and original designs  
are willing to pay well for anything  
that appeals to their liking and that,  
in their judgment, would sell well.  
Besides the money that this transac-  
tion puts into the pocket and hope  
that it inspires in the student it often  
leads to more numerous orders and  
establishes a connection which is high-  
ly profitable. If making immediate  
money is a necessity at the end of  
the course.

### DOG MAIL CARRIER.

The Sagacious Animal Waits for the  
Train and Takes Charge of  
Mailbag.

Out in Kansas, where so many  
things are different, there is a big st.  
Bernard mail carrier. He lives in one  
of the little "cross roads" towns,  
where the only store, which is also  
the post office, is 20 rods from the  
railroad track. The train, says the  
Detroit Free Press, always goes whiz-  
ing by at a good rate of speed, whis-  
tling as it approaches. Nep hears the  
whistle and hurries to the crossing  
and waits for the coming of the mail.  
The mail clerk kicks the leather bag  
out of the door and it falls somewhere  
in the vicinity of the road. Nep at  
once goes to the sack, and carefully  
taking it by the middle, so that  
neither end will drag on the ground,  
walks sedately to the store, where  
he deposits his burden in a safe place.

He does this every day, in spite of  
the weather, and the whole country  
knows and is proud of the dog mail  
carrier.

Nep is four years old, is two feet  
seven inches in height, and weighs 250  
pounds. He has no difficulty in carry-  
ing the sack, though the mail is often  
very heavy with the weekly papers  
from the county seat, for his teeth  
are strong and he has carried over 100  
pounds as a test of his strength.

### Tommy Atkins Unharnessed.

In one of the scrimmages before  
Ladysmith, various sections of infan-  
try had been shelling away for some  
time at the Boer trenches, when it was  
decided to send forward a detachment  
of Dunderdall's cavalry to try to head  
off a band of moving Boers. As the  
horsemen galloped past the infantry-  
men, one lost his seat. The fallen rider  
—an Irishman—pulled himself togeth-  
er and chased his mount. As he ran  
past the infantry lines, the "Tommies"  
jeered at his undignified position.  
Paddy halted for a second. "Yes, ye  
may laugh, boys," he said, "for sure  
O'm nothin' but a common foot sol-  
dier now!"

### Bees Have Keen Eyes.

Bees are said to see an enormous  
distance. When absent from their  
hive they go up in the air till they  
see their home, and then fly toward it  
in a straight line.

### Tourists in the British Isles.

It is expected that during the com-  
ing summer the number of Scotch and  
English tourists in Ireland will top  
the record.

## Instances That Illustrate Delibera- tion with Which They Some- times Act.

An amusing incident, which shows  
that animals are subject to feelings  
very like those which occasionally ruf-  
fle the bosoms of men, occurred some  
little time ago at the Jardin des Plantes  
in Paris, says Youth's Companion.

A large elephant, formerly the cen-  
ter of attraction, found himself sup-  
planted in public favor by a new arrival  
—a young camel. The camel was the  
latest acquisition, and very naturally  
engaged the attention of visitors.

The elephant for a long time showed  
signs of dissatisfaction, and at last its  
jealousy reached a point where it must  
find expression. When the usual crowd  
gathered about the camel, the elephant  
prepared for action. It filled its trunk  
with water, and with deliberate aim  
discharged the water all over the peo-  
ple who stood looking at the baby  
camel.

This method of throwing cold water  
upon the admirers of a rival brought a  
laugh even from its victims.

Equally wise in making its calcula-  
tions was a cat that chose a peculiar  
spot for a bed. Comfort was the cat's  
object, and the chosen spot did not  
seem to be calculated to afford it. The  
cat was found fast asleep in a large  
shipbuilding yard, lying on what  
seemed to be a very muddy path.

It was found, however, that the spot  
chosen by the cat for its couch was  
the point at which a lot of steam pipe  
passed under the road, so that the mud  
was baked into a warm, dry clay, which  
made not only a clean but an artificially  
heated sleeping place.

### A WESTERN MINING TOWN.

The People That Go to Make Up a  
Community in the Gold  
Country.

With all the juggler growths and  
magical buddings and burgeonings in  
this latest forcing house of fortune,  
one looks confidently for some typical  
effect in humanity. It is inevitable,  
says Scribner's, that an environment  
so strikingly original should stamp its  
impression upon the indweller, and the re-  
sult is a type peculiar to the gold field:  
a type in which the brain courage of  
the schools and of the battle ground of  
the market place is fairly crossed with  
the body fitness of the pioneer. In the  
groomsmen, and in their masters,  
the men of affairs, the type is well de-  
fined. You recognize it in passing and  
instinctively lift your hat. For it is  
the apotheosis of all that is strongest  
and most undaunted, and perhaps all  
that is least malleable and most self-  
assertive, in our composite nationality.  
If it be not a survival of the fittest, it is  
at least an ingathering of the best-  
equipped.

At a dinner given by the alumna  
of one of the older universities a short  
time since, there were 60 covers laid,  
and no empty chairs. If the alumna  
of all the colleges represented in the six-  
mile by ten district could have been  
guests at this dinner, it is conceivable  
that not all the inmates of the town  
could have seated them.

### HETTY GREEN'S SUCCESS.

She Does Not Believe in Speculation,  
and Does Everything with  
All Her Mind.

Hetty Green was recently induced  
to talk to a writer for Ladies' Home  
Journal of her business methods that  
have won her \$500,000 or more. The  
secret of her success is worth know-  
ing: "I don't believe in speculation as  
a rule," she says, "and I don't  
speculate as much as people think.  
When offered so many shares of stock  
at so much I buy one share and then  
send out to see what it will bring.  
If it's a good advance I buy the rest.  
If not, I don't. This was my plan  
when I needed to deal in houses. I  
would get a day's option on a house,  
and see what it would bring before  
buying it. I attribute my success  
chiefly to the rule of always buying  
when everyone wants to sell, and sell-  
ing when everyone wants to buy.  
There's a price on everything I have.  
When that price is offered I sell. I  
never buy anything just to hold on to  
it. Not much! And I try to steer  
clear of Wall Street. Anyone who  
hasn't a whole fortune to back his  
deals had better do the same. I do  
everything with all my mind. If there  
is a lawsuit on hand I go into every  
detail of it with my lawyer. It's the  
same with everything else."

### EXPENSIVE TARGET PRACTICE.

It Costs Over \$500 to Fire a Twelve-  
Inch Gun, and They Often  
Miss the Mark.

A single big gun of the many now be-  
ing put in place for the protection of  
seacoasts costs a large sum. Some in-  
teresting figures on this subject have  
just been submitted, says the Scientific  
American.

A 12-inch breech-loading rifle, with  
its disappearing carriage, costs \$141,-  
000; a ten-inch breech-loader, \$99,250,  
and an eight-inch, \$72,000. The figures  
show that modern high-powered guns  
cost great sums, and the cost of firing  
them is proportionately large.

The report of experts who have in-  
spected these guns and the devices for  
securing an accurate aim shows that  
great saving is effected by modern  
range-finding and position-finding de-  
vices.

"The demoralizing effect of a hit no  
compared to a miss," said one of these  
reports, "cannot be reduced to a money  
value, but it costs big money to shoot  
a big gun and then miss the mark."

"Take, for example, the 12-inch gun.  
To miss the mark is simply to throw  
away \$501.70. With the ten-inch gun  
the loss is \$322.40, and with the eight-  
inch rifle it is \$164.65."

To one accustomed to tropical conditions, the furnishing of the Porto Rican home would at first sight seem meager, but it is quite ample, says Harper's Bazar. A short residence will demonstrate that nearly 500 years of experience with the unpleasant features of life in the West Indies have been crowned by a survival of the fittest in furnishing as in other matters.

Austrian bent-wood furniture and willow ware constitute the main equipment of the parlors and living rooms. Upholstered furniture is unknown and undesired, little or no attempt being made at decoration, except in the matter of embroidery and fine hand-made lace work. Hundreds of yards of crocheted work are used in the embellishment of a single canopied bed. The work is the chief delight of the Porto Rican housewife.

The walls are for the most part bare, but here and there a painting of merit may be seen. The sofa pillow is one of the great features of the home; it is everywhere, in every conceivable size, shape and material. Ferns of gigantic size and exquisite formation, as well as broad-spreading palm leaves, are used to festoon the walls and arched doorways. Cut fresh from day to day, they render the dark, cool rooms inviting and attractive. Potted tropical plants in great variety abound within and without the house.

**THE AGULHAS CURRENT.**

Its Stream Renders the Passage of Cape Horn Extremely Difficult and Dangerous.

Going south, we find the Agulhas current, beloved of homeward-bound sailing ships round the Cape of Good Hope, pursuing its even, restless course around the southern horn of Africa changelessly throughout the years, says the Spectator. How its stubborn flow frets the stormy Southern sea! No wonder that the early navigators doubting the cape outward bound, and fearing to go south, believed that some unthinkable demon held sway over those wild waves. The passage of Cape Horn from east to west holds the had eminence to-day among seafarers of being the most difficult in the world, but what the outward passage around the Cape of Storms must have been before men learned that it was possible to avoid the stream of the Agulhas current by going a few degrees south we of these later days, can only imagine. What becomes of the Agulhas current when once it has poured its volume of Indian ocean waters into the Atlantic? Does it sink below the surface some hundreds of fathoms and silently, smoothly glide south to the confines of the Antarctic ice barrier, or does it wander northward into warmer regions? In any case, it fulfills the one grand function of all currents, whether of air or water—the avoidance of stagnation, the circulation of health among the nations of the earth.

**DANGER IN A FOX BITE.**

An English Baronet's Son Was Bitten and Died of Blood Poisoning.

Blood poisoning frequently occurs in cases of wounds from the teeth or claws of animals, especially those that feed wholly or in part on putrid flesh, and it is easy to understand that, in the cases of such species as eat only game of their own killing, there must be traces of their feasts, in the shape of shreds of animal matter, left adhering to their claws and teeth to decay and become poisonous in time. It is for this reason that few men who have been "mauled"—as the English express it—by lions or tigers ever recover from their injuries. Arguing along the same lines, it is possible that the number of deaths on record from the bite of the western skunk, or "hydrophobia cat," may be traceable to blood poisoning rather than the rabies. The skunk seems to have a mania for biting people, but in this respect he is not unique. The common house rat where allowed to become overbold from their numbers, frequently nibbles at the fingers, ears or toes of sleepers in dark rooms. But rats are not wholly carnivorous by nature and in consequence there is less danger in their bites. The eldest son of Sir Pryse Pryse—a fox-hunting baronet of Cardiganshire, England—died recently from blood poisoning, superinduced by the bite of a captive fox.

**DOWNING A COLORED BRUTE.**

Astor Chandler's Commandable Method of Protecting a Girl from Insolent Conduct.

One day not long ago Representative William Aston Chandler was riding in an open car on Broadway in New York, says an exchange of that city. In front of him sat a young and pretty girl. Into the seat with her stepped a burly negro, who soon began to annoy her with his rude stares. Chandler carried a light cane. With the cane he touched the negro on the shoulder.

"Don't do that," he remarked, in a quiet but firm tone, and the negro glared angrily at him. A moment later the annoying attentions were resumed. Once again Chandler touched the negro with his cane.

"Don't do that," he remarked. "I really do not like it."

"And who the devil are you?" said the colored man, angrily.

Chandler laid his cane on the chair. Then he arose, seized the negro by the shoulder, threw him bodily into the street while the car was running at high speed, settled back again in his seat, lighted a cigarette and smiled.

**How a Woman Suffers.**

Howell, Ind., Nov. 23.

I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.

Mrs. MINNIE STODGERILL.

**WINE OF CARDUI**

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhoea. It means martyrdom—sometimes even death seem, preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.
